

INT. OFFICE - DAY

A BUSINESS MAN stands in his office and reacts to the NARRATOR'S comments. He is worn out and tired. A computer sits on his desk and a rack of servers is nearby.

NARRATOR  
You may feel your current data  
protection strategy is fine, but when  
has fine been good enough?

A large safe slides into the office and opens. The rack of servers slides into the safe and the door closes.

The logos of Lenovo and Veeam appear.

NARRATOR (cont'd)  
What if you could strengthen your  
data protection by leveraging joint  
solutions with Lenovo and Veeam?

INT. COMPUTER DATA FLOWCHART

Data packets flow from a computer with a Microsoft Office 365 logo above it.

NARRATOR  
In today's global workforce,  
sensitive company information is  
transmitted through solutions such as  
Microsoft Office 365.

The data stops and doesn't know where to go until a Lenovo server appears. The data packet then flows into the server then continues on to backup by Veeam.

NARRATOR (cont'd)  
However, Microsoft doesn't provide  
comprehensive backup and protection  
without help from Lenovo Data Center  
Solutions and Veeam Backup for Office  
365.

The Lenovo and Veeam logos dominate the screen together.

NARRATOR (cont'd)  
Lenovo and Veeam are better together.

As the Narrator lists out the 3 issues, they appear below.

NARRATOR (cont'd)

With Lenovo and Veeam, organizations that struggle with low levels of data availability, inadequate data access, and environmental complexity can...

The first list is wiped away and replaced with a new list.

NARRATOR (cont'd)

maximize ROI, achieve rapid and comprehensive recovery, and simplify IT.

INT. OFFICE - DAY

We return to the Business Man's office. The sun is shining through the window and the man is happy to be at work, sipping his morning coffee.

As the Narrator speaks key words appear on the screen to help drive home the message.

NARRATOR

Veeam enhances data protection for  
Lenovo with 24/7/Office 365  
Availability; high-performance,  
localized Hyperconverged  
Infrastructure; and cost-effective,  
flexible Data Protection for  
multipurpose workloads.

Focusing now on the cup of coffee and his desk, slightly out of focus, The logos of Veeam and Lenovo appear once more along with the link to more information.
